

## **DiskOnChip Millennium Module**

End of Life, December 2003

### **Description**

M-Systems is announcing the End of Life (EOL) of the following DiskOnChip products:

<b>EOL Product</b>		<b>Recommended Replacement</b>	
<b>Product Name</b>	<b>Ordering Info</b>	<b>Product Name</b>	<b>Ordering Info</b>
DiskOnChip Millennium Module	MD2802-D08 MD2802-D08-V3	DiskOnChip 2000 16MB	MD2202-D16

### **Reason for EOL**

Toshiba has stopped supporting early-generation 0.4 micron flash technology. As such, it will no longer be possible to manufacture DiskOnChip Millennium 8MB. Since DiskOnChip Millennium Module (8MB) is based on DiskOnChip Millennium 8MB, M-Systems will no longer be able to support orders of this product.

### **Schedule**

Last order date: March 1, 2004

Last shipment date: April 1, 2004

### **M-Systems Alternative Products**

M-Systems offers DiskOnChip 2000 16MB as a replacement option for DiskOnChip Millennium Module. This is the lowest modular capacity currently supported.

### **Compatibility Issues**

Due to differences in technology between DiskOnChip Millennium Module and DiskOnChip 2000 16MB, there are several integration issues that must be considered. For further technical details on hardware integration, please refer to the DiskOnChip 2000 16MB data sheet.

Both DiskOnChip 2000 16MB and DiskOnChip Millennium Module are supported from TrueFFS 1.21 and higher, therefore the software integration process is simpler.

### **Call for Action**

Customers using DiskOnChip Millennium Module are requested to place last orders and evaluate DiskOnChip 2000 16MB. If a software driver is required, refer to our website for the appropriate version or contact your M-Systems representative.

### **How to Contact Us**

Please contact your M-Systems representative or visit the DiskOnChip web page on the M-Systems website ([www.m-sys.com](http://www.m-sys.com)) for any further information or assistance.
